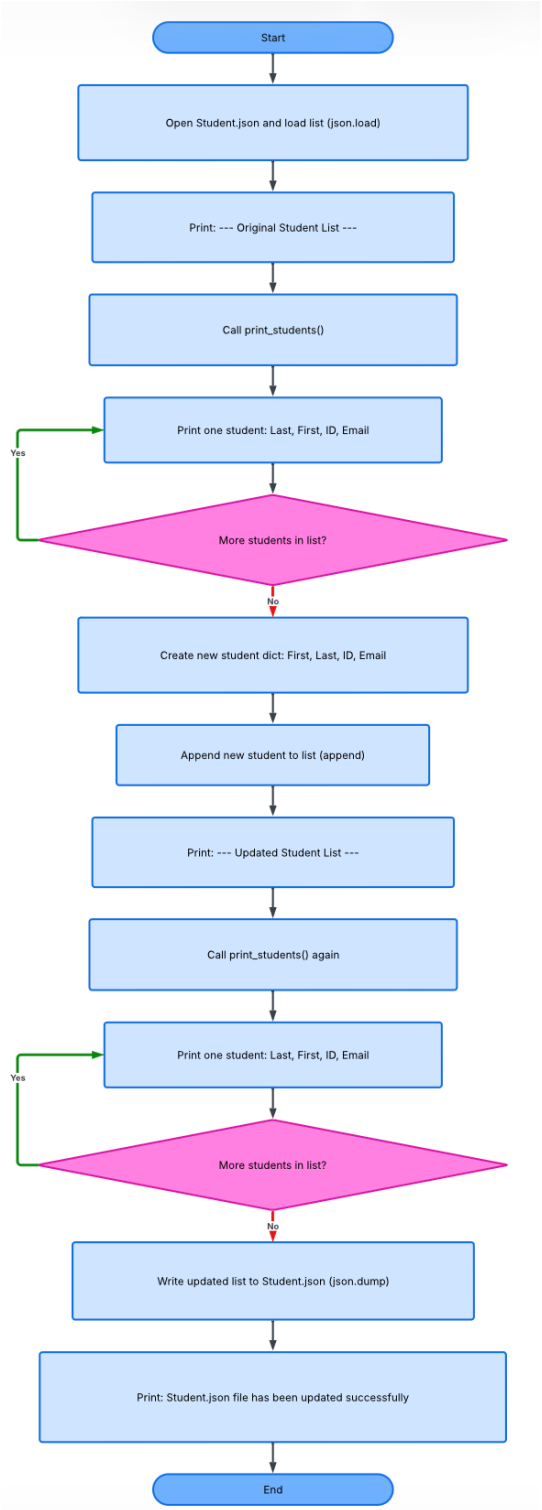
Fernando Contreras
Assignment 8.2: JSON Practice Assignment
May 1, 2026

Flowchart: student_json_fc.py



Run the program and take a screenshot of the results. Paste that screenshot into your Word document.

student_json_fc.py U

csd-325 > module-8 > student_json_fc.py > ...

```python
def main():
    new_student = {
        "F_Name": "Fernando",
        "L_Name": "Contreras",
        "Student_ID": 99999,
        "Email": "fcontreras@gmail.com"
    }
    class_list.append(new_student)

    # — Print the updated student list ————————————————————————
    print("\n--- Updated Student List ---")
    print_students(class_list)

    # — Dump the updated list back to the JSON file ——————————————
    with open(FILENAME, 'w') as f:
        json.dump(class_list, f, indent=4)

    print(f"\nThe {FILENAME} file has been updated successfully.")

if __name__ == "__main__":
    main()

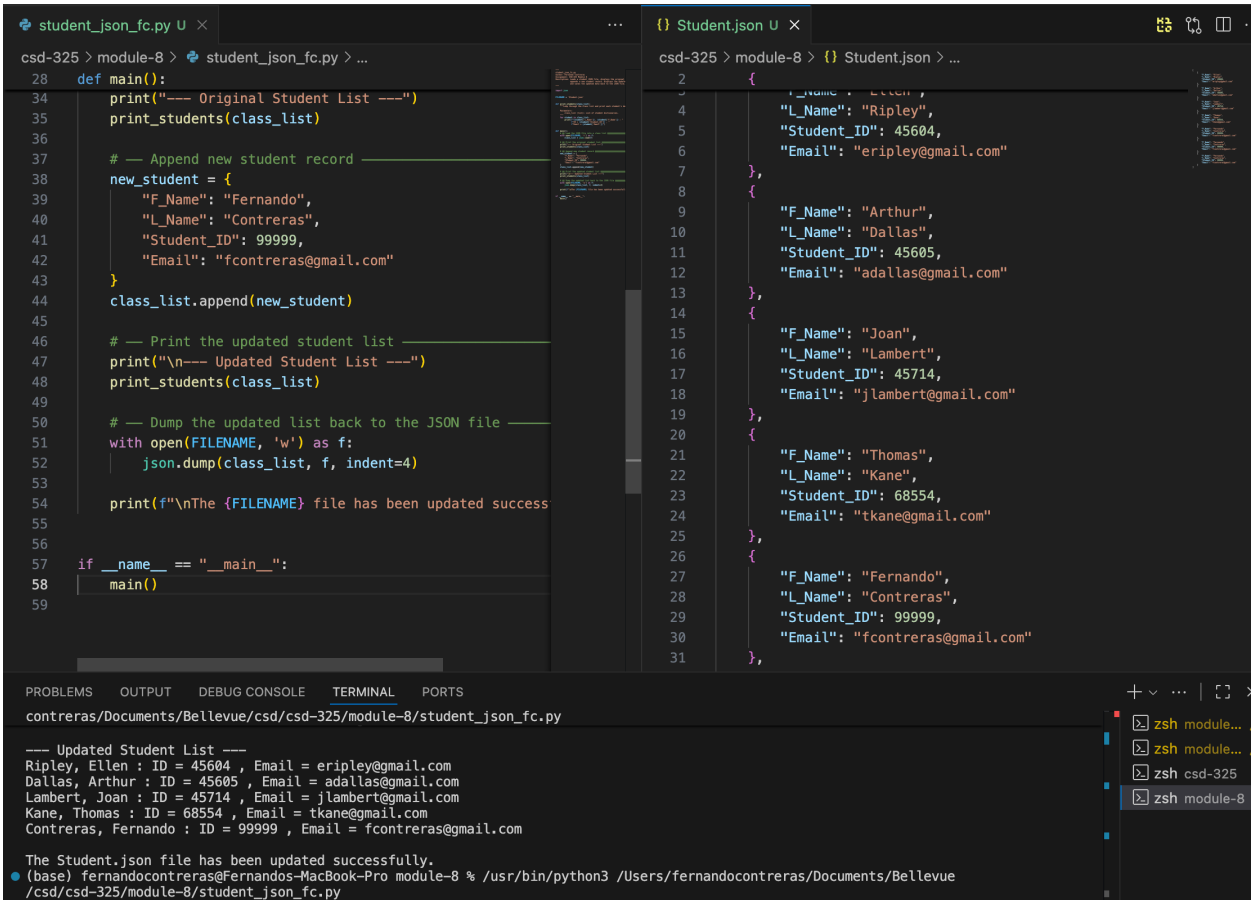
Student.json File Change Notification — Screenshot

The file change notification did not appear automatically on macOS. This is because macOS file watchers behave differently than Windows in some editors. As an alternative, the updated Student.json file was opened manually to confirm the changes were saved successfully. The updated contents are shown below.



Open the .json file and copy the contents, then paste that into your Word document.
